

## Key Stage 5 Sociology Curriculum Plan

**KS5 Curriculum Intent** - We believe all sociology students should be educated to be active, critical thinkers, who question the world around them, and do not accept things at face value. To be engaged and informed about social issues and understand a variety of different viewpoints on these social issues. Ultimately sociology should help students to be prepared for a variety of career paths, as we believe all careers can benefit from sociological insight.

### Year 12 LTP
