

WINDSOR SIXTH FORM SUMMER WORK

BTEC Music

Feel free to complete just one or both of the tasks.

Task 1:

Pretend you are a freelance musician setting up your own business. Choose from one of the following things and create a PowerPoint explaining your business and why/how it will be successful.

- Lighting and sound equipment hire
- Recording studio
- Music teacher
- Music promotion and marketing

You could include: a business plan, posters to promote your business, information about who would use your company and why, where your business would be, what it would be called, a slogan/catchy piece of music to advertise etc.

Task 2:

Prepare a performance based on your main instrument. You can explore any musical style but try to prepare something unique and exciting. This can be a composition of your own or a cover song. Try to think about your stage presence when you are performing. Think about what you look like and how you move when you perform.
